

WMHS Statement on School Lockers

Please also be aware that students are assigned school owned lockers to use while attending Ward Melville. The District owns all lockers, locks, combinations and/or keys to all lockers within our facility. Students do not have any right or expectation of privacy for anything stored within school lockers. The sole purpose for being able to lock school lockers is to minimize theft of property and to allow students to store coats and books while attending school. We maintain the right to access any locker at any time with or without advanced notice. Students have no right to lock school owned lockers with personally owned locks and if this occurs the school has the right to remove them. In addition, students are solely responsible for items contained within their school assigned lockers. Students should never share their combination, allow other students to share their lockers and should immediately notify school administration if their lockers do not function properly and cannot be properly secured.

On behalf of the administration and staff of Ward Melville High School I thank you for your cooperation.
