

# Holiday Science Camp

<b>Dates</b>	Monday, November 11: Chemical Reactions
	Wednesday, January 29: Cells
	Thursday, February 20, 2025: Matter
	Thursday, April 17, 2025: Motion
<b>Time</b>	9:00am – 3:00pm
<b>Fee</b>	\$65 per session
<b>Eligibility</b>	For students in 5th, 6th, or 7th grade in the 2024-2025 academic year
<b>Maximum Enrollment</b>	24 students

These academic programs will complement the students' science curriculum at school and challenge them to think, research and experiment. Each program will be laboratory-based, but will involve reading, writing and group work. Each day's activities are based on a specific theme. Students will participate in experiments, create crafts and watch demonstrations. Students participating in these programs should be interested in science, inquisitive, and willing to work hard to learn something new!

Previous camps have included projects and experiments in the fields of biological and physical science including marine biology, the solar system, motion, sound, and chemical reactions.

**Programs that don't meet enrollment requirements will be cancelled 1 week prior. Please enroll early!** Registration information, payment and program details can be found on our website [www.stonybrook.edu/istem](http://www.stonybrook.edu/istem)

Program Director: Kristen Vadasz
